About Séché Environnement

Séché Environnement is one of France's leading players in the recovery and treatment of all types of waste, from both industry and local communities.

Séché Environnement is the leading independent operator in France. It is uniquely positioned as a specialist in highly complex waste, operating within regulated waste recovery and treatment markets with high barriers to entry, and develops cutting edge hazardous and non-hazardous waste recovery and treatment solutions.

Its facilities and expertise enable it to provide high value-added solutions to its industrial and public authority clients, targeting the challenges of the circular economy and sustainable development requirements, such as:

- > material or energy recovery from hazardous and non-hazardous waste;
- a comprehensive range of treatment solutions for solid, liquid and gaseous waste (thermal, physical-chemical and radiation treatment, etc.);
- the storage of final hazardous and non-hazardous waste;
- > eco-services such as decontamination, decommissioning, asbestos removal and rehabilitation;
- > the global management of environmental services under outsourcing agreements.

Leveraging its extensive expertise, Séché Environnement operates in more than 15 countries around the world and is developing rapidly internationally through organic growth and acquisitions. Already operating in Europe (Spain and Germany, and now Italy) Séché Environnement has recently taken a leading position in Latin America (Peru and Chile) and in South Africa. The Group currently employs around 4,500 people worldwide (including about 2,000 in France).

Séché Environnement has been listed on Eurolist by Euronext (Compartment B) since November 27, 1997.

It is eligible for equity savings funds dedicated to investing in SMEs and is listed in the CAC Mid&Small and Enternext PEA-PME 150 indexes.
